

Hygiene concept

IGRF Workshop
from 11. to 13.04.2022

1 General

From 11.04. to 13.04.2022, the IGRF workshop will take place in the Tagungslounge Leipzig with about 25 participating persons. The organizational unit G4 of the BKG is responsible for hosting this event. The organizational unit ensures the implementation and monitoring of this hygiene concept in conjunction with the in-house hygiene concept drawn up by the Tagungslounge Leipzig. We reserve the right to extend/modify the measures at short notice due to the current pandemic situation.

2 Measures outside the BKG

For events at Leipzig (seat of the Branch Office Leipzig of the BKG), the **Saxon Corona Protection Ordinance of March 31, 2022 must** be observed (The Saxon state government strongly recommends wearing masks (preferably FFP2) in indoor areas accessible to the public and observing the minimum distance. Also, contacts should still be limited to a necessary level. It is also urgently recommended to observe the hygiene rules, which are an effective protective measure). Currently, there is no valid Saxon Corona Hygiene General Order.

3 Measures by the BKG

The present hygiene concept, with any measures that may be extended/modified at short notice, is to be made known to the participating persons by the responsible organizational unit before the start of the event.

3.1 Ventilation of the rooms

The rooms must be ventilated through the windows at least every 20 minutes before and after the event, during breaks and during the event.

3.2 Distance

The tables and chairs in the event room will be arranged in such a way that the participating persons can maintain a distance of at least 1.5 meters on the traffic routes (corridors, passages) and at the seats.

A minimum distance of 1.5 meters must be maintained on the corridors within the buildings. The sanitary rooms may be entered by a maximum of two persons at the same time. Here, too, care must be taken to ensure sufficient distance.

3.3 Serving drinks and food

Drinks will be provided by the caterer of the Tagungslounge Leipzig. Snacks will be served during the breaks. Sufficient spacing is to be ensured here. The hygiene concept of the conference lounge applies to the serving of food and drinks.

3.4 Surface disinfection

Disinfection measures are carried out in accordance with the hygiene concept of the Tagungslounge Leipzig.

3.5 Other measures

Participating individuals must follow the instructions currently posted in the building.

3.6 Final measures

After the event, disinfection measures are carried out in accordance with the hygiene concept of the Tagungslounge Leipzig.

4 Measures by the participating persons

4.1 Self-declaration of the participating persons concerning Corona

A self-declaration is no longer required due to the repeal of the 3G proof requirement.

4.2 Distance

Participating persons should maintain a distance of at least 1.5 meters from all other persons throughout the event. Where no distance can be maintained, mouth-nose protection should be worn by the persons concerned.

4.3 Hand hygiene

Disinfection dispensers are available for hand disinfection. Participants must disinfect their hands upon entering the venue and before and after the event. Additional disinfection dispensers with hand disinfectant can be found in the sanitary rooms.

4.4 Cough and sneeze etiquette

Participating individuals must follow general cough and sneeze etiquette.

Leipzig, 06.04.2022

Dr. Axel Rülke
